

Premium parking for Air Festival 2024

How to book your premium car parking at the Air Festival

Location and Date specific location codes are available on our [website](#).

- Enter location/zone code for date and premium parking location.
- Click park and next to proceed to book.
- Choose registration number – this must match the vehicle parking on the date of the event to allow entry.
- As you are prebooking a space the message “A Parking space is not guaranteed” is not applicable as the premium car park will be stewarded to ensure you have a space.
- Select date premium parking is required – this must match the date covered for the zone number you are booking in.
- Select approximate time of arrival, however this does not need to be accurate as the premium parking charges are for the full day and can be used from anytime up until midnight.
- Choose all day duration and click next to proceed with booking.
- Choose payment card and complete payment

The confirmed session will show in your planned sessions within the App. Please show confirmation of this session to gain entry to the parking space on the booked date of the air festival.
